Superintendent's Report

Dummer, N. H., February 1, 1935.

To the School Board of Dummer:

I herewith submit the annual report of the Superintendent of Schools.

During the past school year, two schools—the Willis and West Dummer—have been in operation. The children from the Pontook District have again been transported to the Milan Village School, as this seems to be the best arrangement from every standpoint. There has been no change in teachers.

The schools were actually in session for 172 days with an average attendance for the year of 94.7%. This is slightly better than for the previous year. Your pupils seldom absent themselves from school except in case of sickness.

The Superintendent has been able to visit your schools on an average of about twice each month. The work of the different classes has been examined and tests have been given. The discipline has been good, the work is up to grade and all pupils are accomplishing the amount commensurate with their ability.

Near the close of the present Fall term, a dental clinic in conjunction with Milan was held for school pupils. Many children had their teeth treated at this clinic and a real constructive piece of health work was accomplished.

It would be well if something of this kind could be accomplished each year. This clinic was held under the direction of your school nurse, Mrs. Nina McCarthy and Dr. I. B. Stewart of Lancaster.

Three pupils were graduated from the Eighth Grade of the Willis School last June and are now continuing their work in High School. This year we will have three to graduate from the West Dummer School and none from the Willis.
